### Summary

Software Developer at OWY Technosys Pvt. Ltd. with 1.6 years of experience in full-stack and frontend development, specializing in building scalable, user-focused web applications using React.js, Node.js, and modern JavaScript technologies. Experienced in developing e-commerce solutions, including a Shopify plugin, and building production-ready features with clean architecture and API integration. Holds a B.Tech degree in Computer Science and Engineering, with a strong focus on delivering efficient, scalable, and maintainable software solutions.

### Technical Skills

- **Programming Languages:** JavaScript, Python
- **Libraries/Frameworks:** HTML, CSS, ReactJS, NodeJS, ExpressJS, REST APIs, Fast API
- **Tools/Platforms:** VS Code, Cursor, KIRO, Antigravity, Codex, WordPress, Shopify
- **Databases:** MySQL, **Cloud Services:** AWS Cloud Services

### Work Experience

#### Software Developer- Owy Technosys Pvt. Ltd. , Surat

Oct 2024 - Present

- As a Software Developer at OWY Technosys Pvt. Ltd. with 1.6+ years of experience in web development. Worked on Shopify plugin development using PHP, React, and SQL.
- Currently building a React.js-based application with a focus on performance and user experience. Committed to delivering scalable and impactful software solutions.

#### Full Stack Java Developer Trainee - Ducat India, Noida(U.P)

Feb 2023 - Sep 2023

- Through hands-on experience, I developed strong expertise in real-world Java development, enhancing my problem-solving and practical implementation skills.
- The project showcased my proficiency in object-oriented programming, exception handling, multithreading, and database integration, reflecting a solid understanding of core Java fundamentals.

### Projects

#### AI Wrapper [🔗](#)

- Developed an AI Wrapper web application using the JavaScript ecosystem (Node.js, React, and REST APIs) to integrate AI capabilities into a responsive and user-friendly interface.
- Demonstrates strong skills in API integration, asynchronous data handling, and full-stack application development.

#### Personal Finance Tracker [🔗](#)

- Built a full-stack Personal Finance Tracker using React (Next.js), Node.js, and PostgreSQL to manage and analyze income and expenses through an interactive dashboard.
- Implemented secure authentication, budget tracking, and data visualization features to enhance financial insights and user experience.

#### Hotel Management Software [🔗](#)

- Developed a Hotel Management System using React, Node.js, and database integration to manage room bookings, customer records, and operational workflows efficiently.
- Gained hands-on experience in full-stack application development, API design, and secure and user friendly data handling.

#### TaskMind Flow

- Developed a full-stack Task Manager using FastAPI and Next.js with JWT authentication, supporting secure login, user-specific task CRUD operations, and RESTful API integration with SQLAlchemy.
- Built a Task Manager application using FastAPI (backend) and Next.js (frontend), implementing JWT authentication, REST APIs, and database integration with SQLAlchemy.

#### Job Application Manager

- Designed and built a Job Application Manager with React and Node.js to help users monitor application status, deadlines, and related details in one centralized platform.
- Demonstrates skills in building structured dashboards, handling persistent data, and creating practical productivity tools.

**Bachelor of Technology - Computer Science and Engineering**

**Dec 2020 - June 2024**
