2 MSP's OBLIGATIONS

- 2.1 MSP will be responsible for performing operations on MSP's and Customers computer systems and Zabbix shall have no responsibility to perform operations on MSP's and Customers computer systems. MSP acknowledges that Zabbix ability to perform certain Support Services may be conditioned upon access to certain MSP and Customers information and access to MSP's and Customers computer system as reasonably requested by Zabbix. Zabbix cannot refuse to solve a certain problem due to impossibility to access MSP's and Customers computer systems without providing a good reason why the problem in question cannot be solved by Zabbix through other technical means (e.g., screen sharing, log files, etc.) without direct access to MSP's and Customers computer systems. Such information may include, but is not limited to, the type of hardware MSP or Customers are using, a description of the problem for which MSP seeks Support Services, and additional software MSP is using that falls outside the Support Services scope of coverage. MSP understands and agrees that the completeness and accuracy of the information provided by MSP to Zabbix may affect Zabbix's ability to provide Support Services. Support Services purchased by MSP are intended for use only for the benefit of MSP and only for the instances (Servers, Proxies and Hosts) covered by this Agreement. MSP may not use Support Services for other third-party beneficiaries and for instances that are not covered by the Agreement. Any unauthorized use of the Support Services will be deemed to be a material breach of this Agreement.
- 2.2 Should MSP initiate a Support Case, Zabbix may require MSP to provide Zabbix with the following information, which shall be considered to be Confidential Information, related to such issue or the technical assistance: (a) a general description of the operating environment, (b) a list of all hardware components, operating systems and networks, (c) a reproducible test case, and (d) any log files, trace and systems files. MSP's failure to provide this information may prevent Zabbix from identifying and resolving that purported issue.
- 2.3 Support Services shall be provided solely to Users. Zabbix strongly recommends Users to be trained on Software. MSP shall be asked to designate Users in writing, including their full name, primary corporate email address, and phone numbers, following the date of entry into force of the Agreement. MSP may not use a single User to act as a mere forwarding service for other personnel. Zabbix shall assign access for Users to use Support Services. Number of Users

is limited for each Support Tier. The initial list of Users is set out in Section "Authorized support contacts" of the Agreement. MSP may change its designated Users at any time by providing written notice to Zabbix. If Zabbix receives any requests or inquiries from MSP employee other than User, Zabbix may address such requests or inquiries, but Zabbix is not obligated to do so. MSP may purchase additional Users for a fee. User may not use Support Services on the basis of this Agreement to benefit any person or entity other than MSP. Each User must have "read and/or write" access to all necessary files. Each User must have good command of English and relevant technical knowledge necessary to assist Zabbix in performing Support Services contemplated under the Agreement. Such knowledge includes familiarity with Software, MSP's infrastructure and Customer's infrastructure.

- 2.4 MSP may initiate a Support Case through the Platform. Users are authorized to login to Platform and to submit a Support Case for any covered Support Service, or to register Support Case by sending e-mail message to Zabbix support e-mail address, or over the phone during Support Services availability time. Each submitted Support Case is given a unique identification number. Support Services logged through the Platform are managed in English.
- 2.5 MSP will be responsible for provision of regular usage reports according to instructions provided by Zabbix. Reported data will consist of number of Items, Hosts, Proxies, Software version, and similar technical and usage information to ensure MSP compliance with T&Cs. Zabbix may use such data as well to produce statistical reports, where all personal information will be removed.
- 2.6 Each Support Tier is limited by the number of Hosts covered under the relevant support tier as set out in Section 4.9. MSP may within its course of operations exceed this limit. MSP may choose either to upgrade to higher Support Tier according to Section 8.2 or to pay for excess use according to the price specified in the initial Invoice that covers particular Support period.

3 PRICING, INVOICING & TAXES

- 3.1 Support Fees shall be due and payable in the currency and pursuant to the payment terms indicated in the Invoice. Without limiting the foregoing, Zabbix shall notify MSP of the then-current annual Support Fee for Support Tier in each renewal Invoice. Support Fees are non-refundable except as required by applicable law or as otherwise specifically permitted in these T&Cs. Zabbix may suspend or terminate Support Services if Support Fees are past due and if MSP does not remedy such failure within five (5) business days upon receipt of Zabbix's notice. MSP shall provide complete and accurate billing and contact information to Zabbix.
- 3.2 MSP shall pay the Support Fees without withholding or deduction. Support Fees are exclusive of taxes and MSP is responsible for all taxes. Zabbix will charge taxes when required to do so. MSP will pay Zabbix net of any applicable withholding taxes. If MSP is required to withhold or deduct any taxes from Support Fees before remitting payment to Zabbix, then MSP agrees to increase the amount payable to Zabbix by the amount of such taxes so that Zabbix receives the full amount of all Support Fees. Thereby, Zabbix may gross up its rates and the amount due in an Invoice to ensure that the net amount actually received by Zabbix equals the gross amount due. MSP and Zabbix will work together to avoid any withholding tax if exemptions, or a reduced treaty withholding rate, are available. If Zabbix qualifies for a tax exemption, or a reduced treaty withholding rate, Zabbix will provide MSP with reasonable documentary proof.
- 3.3 Zabbix shall accept a Purchase Order by issuing the Invoice. The provisions of these T&Cs shall prevail over the terms and conditions of Purchase Orders. Consequently, terms and conditions of Purchase Orders, which are new or conflicting from those set forth in these T&Cs, shall not apply.
- 3.4 Having determined the number of Legal Entities to which the Support Services will be provided under the Agreement, Zabbix applies the appropriate pricing model and Support Tier after assessing the scope of the Support Services to be provided, and the size of the MSP (including the number of Affiliates to be covered by the Agreement).

4 SUPPORT SERVICES AND SUPPORT TIERS

- 4.1 Subject to MSP's payment of the applicable Support Fees set forth in the Invoice, Zabbix shall provide Support Services set out in the Agreement and in the Invoice in accordance with Support Tier descriptions set forth below.
- 4.2 Support Services only cover Support Cases, directly related to, or caused by Software and its functionality, stemming from the Software usage by MSP.
- 4.3 Delivery of Support Services for Software versions is limited according to provisions set out in this Section 4.3. Support Services are provided for Software versions according to Zabbix Life Cycle & Release Policy available at https://www.zabbix.com/life_cycle_and_release_policy, which offers detailed up-to-date information on frequency and cycles of updates for Software versions, and sets out currently supported Software versions. The schedule below sets out supported Software versions, which are actual and applicable on the date of publication of this version of T&Cs. For clarity and consistency purposes, it is recommended for MSP to refer to Zabbix Life Cycle & Release Policy during the period of validity of the Agreement for up-to-date information on currently supported Software versions.

Full Support Services include resolution of all Support Case types, while Limited Support services include only resolution of Support Cases with "Critical" priority and security related issues. Zabbix does not guarantee any problem resolution for older releases and non-stable releases.

Release name	End of Full Support	End of Limited Support
Zabbix 6.0 LTS	February 28, 2025	February 28, 2027
Zabbix 7.0 LTS	June 30, 2027	June 30, 2029
Zabbix 7.2	June 30, 2025	December 31, 2025
Zabbix 7.4	Until 8.0 LTS	Q3 2026

- 4.4 Zabbix shall have no obligation of any kind to provide Support Services for Support Cases directly or indirectly resulting from errors (bugs), performance or other issues occurring due to any of the following: (i) MSP is using Software that is modified or changed either by MSP, or any third party in any way without written direction or express authorization by Zabbix; or (ii) MSP is using Software in ways or use cases other than as provided in the Documentation.
- 4.5 Support Cases are handled based on Support Case priority levels as described in Section 4.8. When submitting Support Case, MSP selects the priority in accordance with the priority guidelines set forth in Section 4.8. Zabbix may upon receipt of Support Case change priority of Support Case if Zabbix reasonably considers the Support Case as non-conforming to the criteria for the selected priority. Zabbix shall respond to Support Case and shall provide Workarounds or problem resolution in accordance with terms set in Section 4.10 for each specific Support Tier. A Support Case is considered to be closed upon receiving a solution from Zabbix that is considered proper by MSP.
- 4.6 Support Services will be provided within Support Services availability time set out in Section 4.9. Support Services availability time 24x7 shall mean availability of Support Services twenty-four (24) hours a day, seven (7) days a week. Support Services availability time 8x5 shall mean standard business hours from 9 a.m. to 6 p.m. according to time zone set out in the Agreement, from Monday to Friday.
- If response time set out in Section 4.10 (for Support Tier with Support Services availability time 8x5) falls out of that particular business day's Support Services availability time, then the remaining response time is transferred to the next business day's Support Services availability time.
- 4.7 Zabbix will use commercially reasonable efforts to provide a response within the response guideline period set forth in Section 4.10 during standard business hours and days as set forth therein.
- 4.8 Support Case priorities are assigned based on the technical importance of the problem in MSP's Zabbix environment.

5 PROBLEM RESOLUTION, SUPPORT CASE'S HANDLING PROCEDURE, CONTRACTUAL PENALTIES

5.1 Problem Resolution

Zabbix will use all commercially reasonable efforts to resolve any issue stemming from the usage of Software by MSP as reported under Support Case.

Zabbix at its sole discretion may resolve such issue in the version of Software that MSP is currently using or may instruct MSP to migrate to a newer minor version of Software with that issue resolved. Zabbix reserves the right to provide MSP with a Workaround in lieu of resolving an issue should Zabbix in its sole judgment determine that it is more effective to do so.

Zabbix may decide against resolving an issue if such resolution, due to complexity based upon the results of the evaluation of technical feasibility in terms of staff time and financial resources needed, places disproportionate burden on Zabbix and requires means clearly out of proportion to commercial viability (e.g., rewriting of significant part of the source code). In the event that Zabbix decides against resolving an issue in Software, as requested by MSP, the latter shall be entitled to decide whether to terminate the Agreement within thirty (30) calendar days from the date when Zabbix informed MSP of such decision by providing five (5) business days' notice in writing to Zabbix, and Zabbix will refund the remaining pro-rata prepaid Support Fees according to the remaining period of Support Services paid and not received by MSP. After receipt of the pro-rata refund of the prepaid Support Fees the MSP will have no further recourse against Zabbix.

5.2 Support Case's Registration and Handling Procedure

5.2.1 MSP, as the necessity in Support Services appears, opens Support Case under procedure that is set out below. The Support Case must contain the name, surname, and contact details of the person who had faced the problem directly, priority of Support Case as per the classification set out in Section 4.8, as well as a detailed description of a question or non-routine situation.

Support Cases may be submitted to Zabbix by User through any of the means listed below:

- through the Platform;
- via e-mail address;
- by telephone.

5.2.2 At the time of registration of Support Case the Platform sends a message with Support Case's number, link to Support Case and the status of Support Case to the e-mail address of User who had registered Support Case. The status "Waiting for Support" is assigned.

5.2.3 The time of commencement of providing the Support Services under Support Case is the time of registration of Support Case by Zabbix.

5.2.4 MSP shall add comments to previously registered Support Case in the Platform in case of repeated request regarding the same problem. Support Case is assigned with the status "Waiting for Support" after adding each comment to Support Case from MSP's side in the Platform.

5.2.5 The reaction time to Support Case is an amount of time between the submission of Support Case by MSP in the Platform and receiving the first human reply message from Zabbix after registration of the respective Support Case. The upper time limit for reaction to Support Case is set out in Section 4.10.1 of these T&Cs. Support Case is assigned with the status "Waiting for Customer" after sending the initial and each subsequent response to MSP's Support Case.

- 5.2.6 The time for providing Workaround is an amount of time between the moment MSP provided Zabbix all necessary information and details regarding particular Support Case and all additional information requested by Zabbix as stated in Section 2.2 and the moment of providing the solution to MSP that allows to reduce the priority of Support Case. The upper time limit for providing Workaround is set out in Section 4.10.2 of these T&Cs.
- 5.2.7 MSP singlehandedly, or Zabbix subject to MSP's approval, will change Support Case's status to "Resolved" after the problem resolution is provided by Zabbix and in case MSP concurs with such resolution. Otherwise, Zabbix representative shall contact User to identify the reason of nonconcurrence, and Zabbix shall resume the provision of Support Services under Support Case (when requested).
- 5.2.8 The time for providing problem resolution is an amount of time between the moment MSP provided Zabbix all necessary information and details regarding particular Support Case and all additional information requested by Zabbix as stated in Section 2.2 and the moment of providing the solution to MSP that allows to close Support Case. The upper time limit for problem resolution is set out in Section 4.10.3 of these T&Cs.
- 5.2.9 MSP shall check the proposed solution and shall inform Zabbix on MSP's concurrence or nonconcurrence with such solution no later than thirty (30) days after the change of Support Case's status to "Resolved". If MSP concurs with proposed solution, MSP shall change Support Case's status to "Closed" in manual way. Otherwise, MSP shall change Support Case's status to "Waiting for Support".
- 5.2.10 The Platform will assign Support Case with the status "Closed" automatically if MSP does not change Support Case's status either to "Closed" or to "Waiting for Support" within thirty (30) days after Support Case is being assigned with the status "Resolved". Support Case is permanently closed for editing, commenting, or changing its status after the change of Support Case's status to "Closed". MSP shall register a new Support Case if new questions or comments arise in connection with Support Case with status "Closed".
- 5.3 **Contractual penalties for delayed Support Services.** In case of a delay in fulfilment of Zabbix obligations that are set out in Section 4.10 of these T&Cs, MSP shall be entitled to impose a contractual penalty for each hour of delay amounting to: (i) one tenth percent (0.1%) of the annual Support Fees for problems with "Blocker" and "Critical" priority; (ii) five hundredths percent (0.05%) of the annual Support Fees for problems with "Major" and "Minor" priority. The total amount of contractual penalties in aggregate shall be capped at five percent (5%) of the annual Support Fees.
- 5.4 If the delay in the process of fulfilment of the duties of one Party makes it impossible for the other Party to timely fulfil its duties under the Agreement and these T&Cs, the term of the fulfilment of the duties by the other Party shall be prolonged for the period of the delay by the delaying Party. The Party, which claims the prolongation of the period of fulfilment of the duties, shall present documents certifying the fact of the delay in the fulfilment of the duties of the other Party.

6 OWNERSHIP

- 6.1 Zabbix will own all rights, title and interest in and to any software programs or tools, utilities, technology, processes, inventions, devices, methodologies, specifications, documentation, techniques and materials of any kind used or generated by Zabbix in connection with performing its support obligations (collectively "Zabbix Materials"), including all worldwide patent rights (including patent applications and disclosures), copyright rights, moral rights, trade secret rights, know-how and any other intellectual property rights (collectively, "Intellectual Property Rights") therein. MSP will have no rights in the Zabbix Materials except as expressly agreed to in writing by the Parties. Nothing in this Agreement will be deemed to restrict or limit Zabbix right to perform similar services for any other party or to assign any employees or subcontractors to perform similar services for any other party provided that Zabbix complies with its obligations under Section 7 with respect to MSP's Confidential Information.

7 CONFIDENTIAL INFORMATION

- 7.1 "Confidential Information" means: (i) MSP's materials and Zabbix Materials; (ii) personal data; (ii) any business or technical information of Zabbix or MSP that is designated by a Party as "confidential" or "proprietary" at the time of disclosure or due to its nature or under the circumstances of its disclosure the Party receiving such information knows or has reason to know should be treated as confidential or proprietary; and (iii) any information that a reasonable person would expect to be confidential, including but not limited to, the Agreement, business or technical information, log files, trace and system files, and which is disclosed by a Party to the other Party.
- 7.2 Confidential Information does not include information that: (i) is or becomes generally known to the public through no fault or breach of this Agreement by the receiving Party; (ii) is rightfully known by the receiving Party at the time of disclosure without an obligation of confidentiality; (iii) is independently developed by the receiving Party without use of the disclosing Party's Confidential Information; (iv) is rightfully received by the receiving Party from a third party without restriction on use or disclosure; or (v) is disclosed with the prior written approval of the disclosing Party.
- 7.3 Each Party will not use the other Party's Confidential Information except as necessary for the performance or enforcement of this Agreement and will not disclose such Confidential Information to any third party except to those of its employees and subcontractors who have a bona fide need to know such Confidential Information for the performance or enforcement of this Agreement; provided that each such employee and subcontractor is bound by a

written agreement that contains use and nondisclosure restrictions consistent with the terms set forth in this Section. Each Party will employ all reasonable steps to protect the other Party's Confidential Information from unauthorized use or disclosure, including, but not limited to, all steps that it takes to protect its own information of like importance. The foregoing obligations will not restrict either Party from disclosing the other Party's Confidential Information: (i) pursuant to the order or requirement of a court, administrative agency, or other governmental body, provided that the Party required to make such a disclosure gives reasonable notice to the other Party to contest such order or requirement; (ii) to its legal or financial advisors, provided that such advisor(s) shall be bound by nondisclosure restrictions consistent with the terms set forth in this Section; (iii) as required under applicable laws and regulations; and (iv) subject to customary restrictions, to present or future providers of venture capital and/or potential private investors in or acquirers of such Party.

8 TERM, RENEWAL, UPGRADE AND TERMINATION

- 8.1 Term.** The date of commencement of the provision of Support Services by Zabbix under the Agreement and these T&Cs shall be either the start date of period set out in Sub-Section "Support period" of Section "Support details" of the Agreement or any such later date as may be specified in the written notification signed by authorized representative of MSP and duly submitted to Zabbix or a date set out in Invoice (the "Effective Date").

The Agreement shall commence on the Effective Date, and continue for a period of one (1) year or other term specified in the Agreement or Invoice (the "Term") and thereafter terminate, unless terminated earlier in accordance with its terms. Support Cases unused during the Term are not transferable to the next Term.

Upon expiration of the Term, the renewal of the Agreement can be made by the extension through one of the following extension options: (i) by mutual written agreement of the Parties, (ii) by MSP's payment of the renewal Invoice issued by Zabbix, or (iii) by MSP issuing the Purchase Order.
