

*Let's **Learn!***

Booklet

Understand the number

Draw the numbers on the magnetic sheet, and play matches with the children to deepen the children's cognition of numbers in the fun game.

4

3

5

7

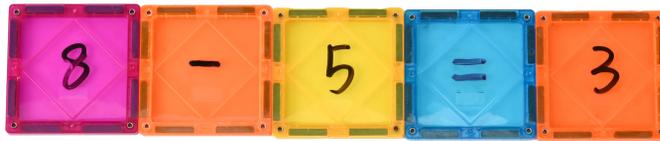

$$4357 = 4*1000 + 3*100 + 5*10 + 7*1$$

Understand the large numbers

Every large number can be explicited into a few lines. The correspondence between number and quantity will help kid to understand how a large number is formulated.

A row of five magnetic tiles: a yellow tile with the number '2', a green tile with a plus sign '+', a pink tile with the number '4', a yellow tile with an equals sign '=', and a blue tile with the number '6'.

A row of five magnetic tiles: a pink tile with the number '8', an orange tile with a minus sign '-', a yellow tile with the number '5', a blue tile with an equals sign '=', and an orange tile with the number '3'.

A row of six magnetic tiles: a yellow tile with the number '3', a green tile with a multiplication sign 'x', a blue tile with the number '7', a pink tile with an equals sign '=', a green tile with the number '2', and a yellow tile with the number '1'.

A row of five magnetic tiles: an orange tile with the number '9', a blue tile with a division sign '÷', a purple tile with the number '3', a green tile with an equals sign '=', and a purple tile with the number '3'.

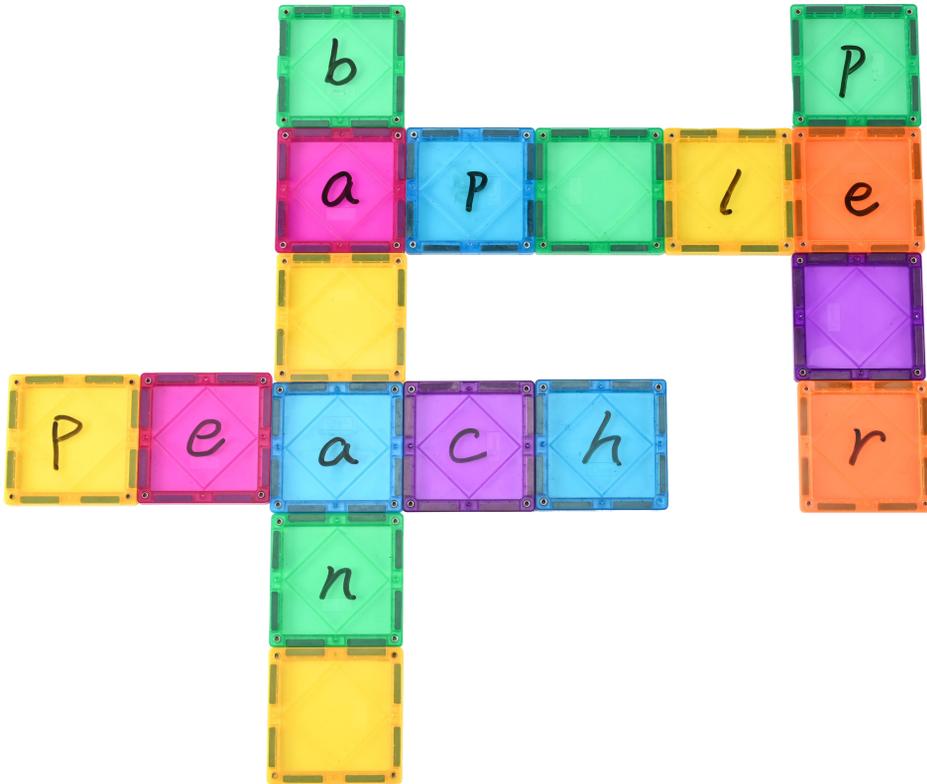

Make an equation

Magnetic sheets are ready-made props to practice addition, subtraction, multiplication, and division operations.

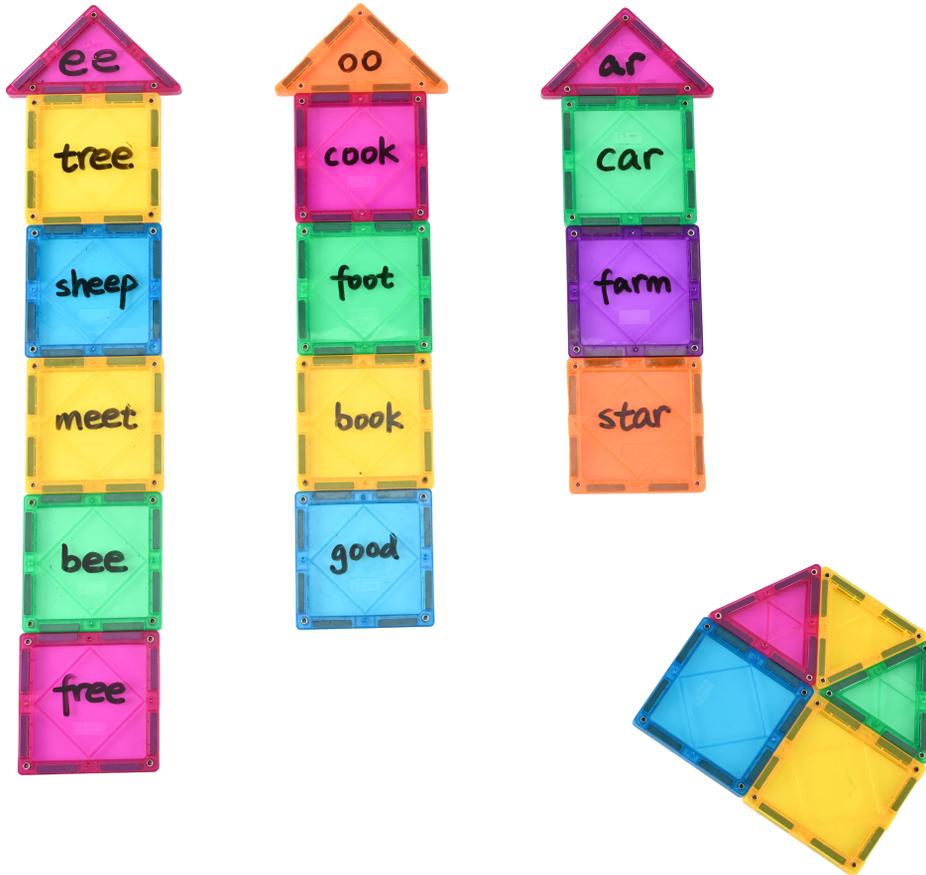

Build an alphabet house

Match uppercase and lowercase letters. Let's build a small house for the matching letters!

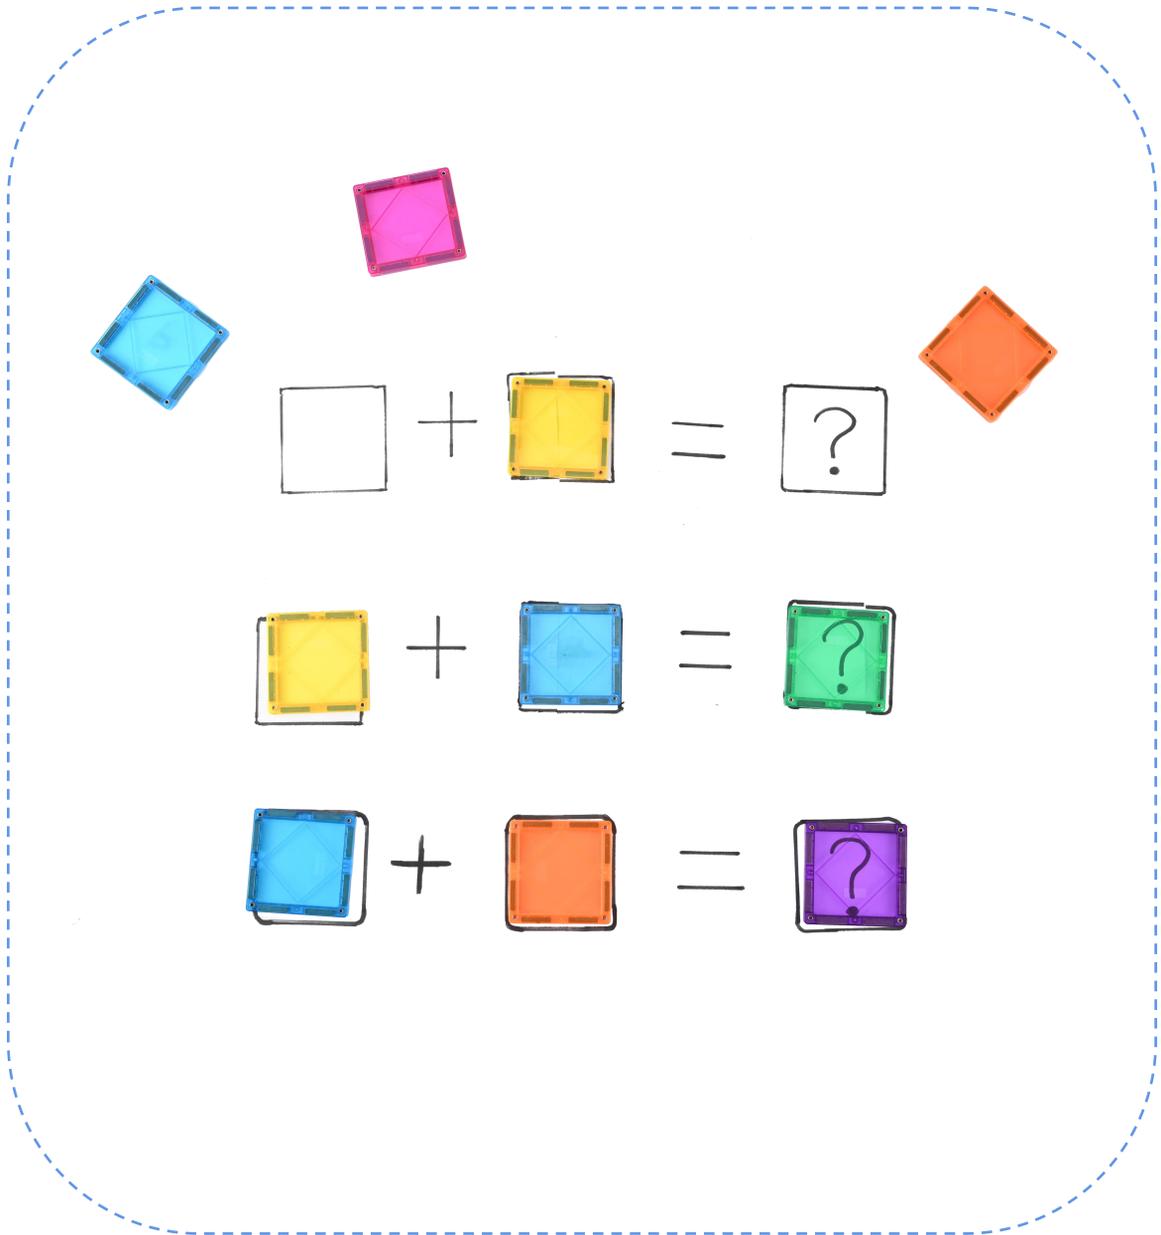

Crosswords puzzle

With a crossword puzzle, kids have hours of fun without knowing that they are practicing spelling. It helps to grow and extend vocabulary.

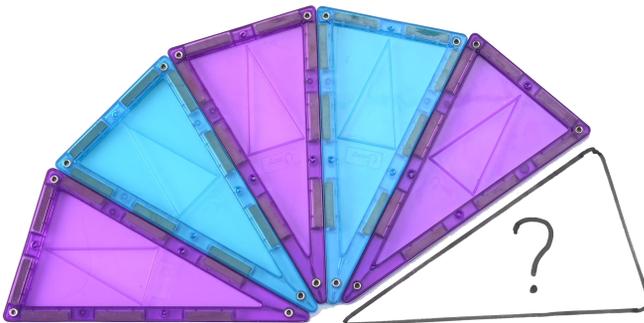

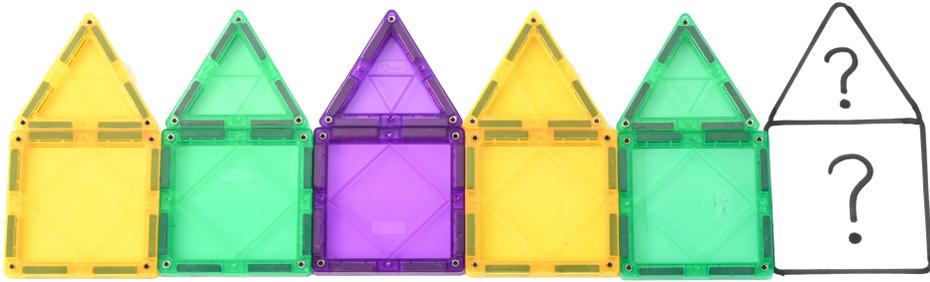

Learn the phonics

Writing English letters on a magnetic sheet is very convenient to help children with cognition. It is also practical to practice the spelling of words.

Understand the colors

Help children distinguish between colors. Also, it is an excellent way to teach kids the principle of three primary colors.

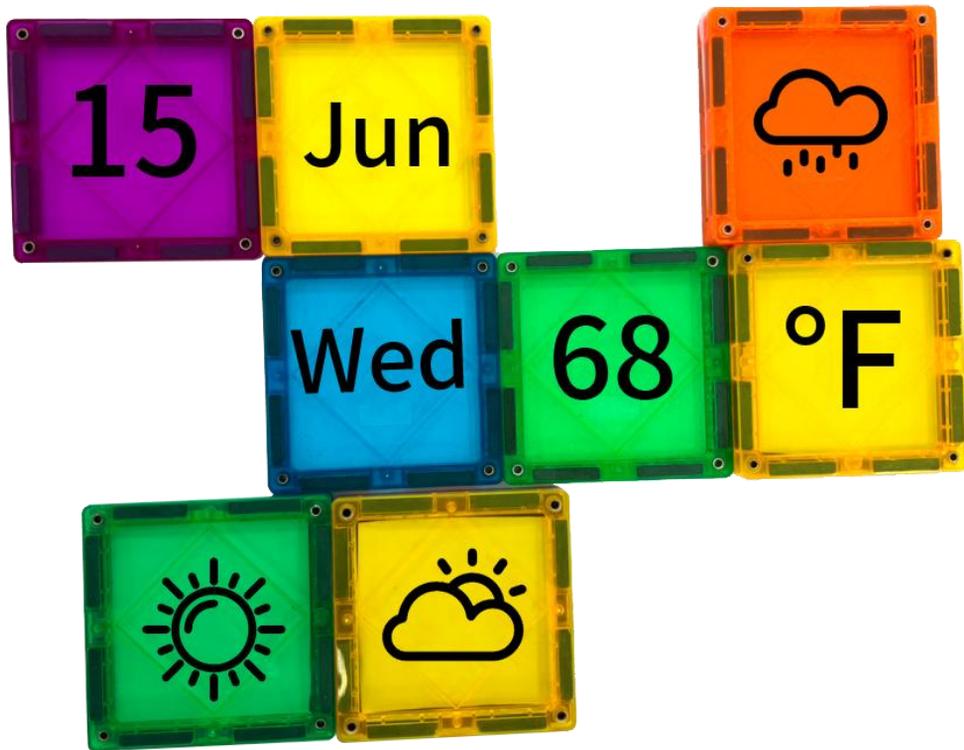

Pattern recognition

Draw the outline on the paper, guide the kid to hold the magnetic tiles to make a group, and teach the child to observe, recognize the shape.

Build dominoes

Learn about cause and effect, and develop patience as your kids build.

Weather broadcast

Learning the concept of date, weather, and temperature.

Daily activity plan

Study the concept of plan. Ask your kid what entertainment plans will be for each of the following days.
