

### CMA as Service Provider

- Incorporated in 1984
- MWBE certified
- Corporate HQ in Latham, New York
- A skilled team of over 300 staff members with extensive experience in state implementations.
- Expertise in clinic operations, financial reporting, and forecasting.
- Specializes in system integration, implementation, training, infrastructure hosting, and help desk operations across time zones. Independent service provider with 35+ years of WIC experience.
- Demonstrated success in states with both large and small caseloads.
- On-site support and coordination for seamless integration.
- Extensive experience in Medicaid, Early Intervention, and Child Welfare.

### State of the Art WIC System

The Health And Nutrition Delivery System (HANDS) supports participant-centered services for Women, Infants, and Children (WIC) programs. It is a flexible and customizable system and is the most current, custom-built WIC application in the nation.

### WIC Participant Portal

A family-centric Participant Portal to guide eligible participants through the certification process and allow existing participants to view and update information. It works on any device using any modern browser.

### Vendor Portal

Streamlines vendor application and review process through the Vendor Portal, enabling 24/7 access to applications and pertinent WIC program information. State and local agencies can expand options for vendor outreach, fast-track vendor applications and reapplications, and reduce data entry requirements for state staff.

### QR Code Based eFMNP

QR Code based eFMNP solution requires NO application download and has NO fees for the farmers or participants. Benefit issuance and redemption and electronic payment functionality for farmers make this a fully electronic FMNP solution.

### WIC Analytics

Brings analytical depth, data visualizations, sharing, and presentation to world-class WIC solutions. Provides managers accurate, timely and actionable information to enhance participant care, program operations, program efficiencies, and program integrity.

### UPC Collection Tool

Facilitates search and retrieve information of WIC authorized food by scanning of Universal Product Code (UPCs) barcode
