IMPORT AND EXPORT

QUALITY YOU
CAN TRUST

ABOUT US

Next Step for Import and Export is a company specialized in exporting vegetables, fruits and agricultural fertilizers, as it places quality and trust at the forefront of its priorities, we believe that success begins with providing products that are characterized by excellence and superior quality, while committing to building long-term relationships with our customers and partners.

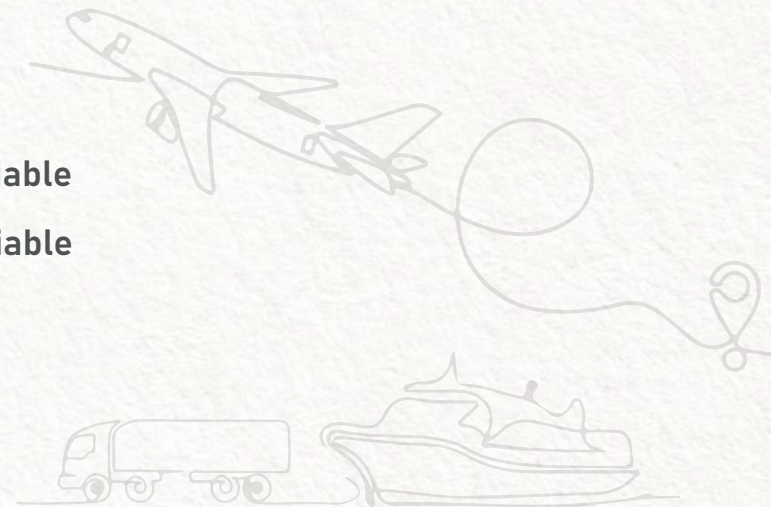

OUR VISION

To become the world's leading exporter of premium agricultural products while balancing agricultural innovation and environmental sustainability.

OUR MISSION

To provide superior quality agricultural products backed by reliable shipping and export services to enhance our position as a reliable partner in global markets.

QUALITY

We are committed to applying the highest quality standards in all stages of our work, starting from product selection to packaging. All our products are carefully inspected to ensure that they comply with international standards, ensuring the provision of fresh and safe products that meet the aspirations of our customers in local and global markets.

TRUST

We consider trust as the cornerstone of our relationship with our partners, so we are keen on transparency and credibility in every step of the work, from receiving orders to delivering them. Our customers trust us to provide reliable export services that ensure that products arrive on time and in the best condition.

PRODUCTS

VEGETABLES

NEXT STEP
IMPORT AND EXPORT

PRODUCTS

VEGETABLES

POTATOES

Potatoes are one of the major crops globally , They are grown in fertile soil and an ideal climate They are characterized by their high quality and ability to be stored for long periods , making them an ideal choice for use in cooking and export.

Varieties

Spunta, Mondial , Nicola , Diamond , Hermes , Rosetta

Sizes

45mm and above

Container Capacity

40 Foot Container is 25 ton

Packaging

Mesh Bags (5 Kg , 10 Kg , 15 Kg , 20 Kg , 25 Kg)
Or as per customer request

PRODUCTS

VEGETABLES

ONION

Onions are a staple crop used all over the world to add flavour to foods , They are characterised by their high nutritional value as they contain vitamins and minerals, in addition to their antioxidant and health-promoting properties.

Varieties

Golden Onion, Red Onion

Sizes

40/60 mm , 60/70 mm
70/90 mm , 90/120 mm

Container Capacity

40 Foot Container is 25 ton

Packaging

Mesh Bags (5 Kg , 10 Kg , 15 Kg , 20 Kg , 25 Kg)
Or as per customer request

PRODUCTS

VEGETABLES

SWEET POTATOES

Sweet potatoes are a crop rich in nutritional value, as they contain many vitamins and minerals such as vitamins A and C in addition to fiber, Sweet potatoes are characterized by their light orange color and natural sweet flavor, which makes them a favorite food in many cultures around the world , Sweet potatoes are grown in warm climates and are a seasonal crop that is used in preparing many delicious and nutritious dishes.

Varieties

White Flesh , Red Flesh , Beauregard

Sizes

From 300 g-To 800 g

Container Capacity

40 Foot Container is from 20 to 25 ton

Packaging

Carton or Mesh Bags (3 Kg , 6 Kg , 10 Kg) Or as per customer request

PRODUCTS

VEGETABLES

TOMATOES

Tomatoes are an important agricultural crop globally and are used in many dishes , They contain vitamin C and lycopene , which makes them beneficial to health , Egyptian tomatoes are distinguished by their high quality and are exported to global markets.

Varieties

R 196 , Bar 84

Sizes

From 5 cm-To 9 cm

Container Capacity

40 Foot Container is 24 ton

Packaging

Carton (2.5 Kg , 5 Kg) Or as per customer request

PRODUCTS

VEGETABLES

CABBAGE

It is a leafy vegetable rich in nutrients as it contains vitamins such as vitamin C and K, in addition to fiber and antioxidants Egyptian cabbage is known for its high quality and delicious taste , It is grown in fertile soil and a suitable environment , Cabbage is used in preparing many delicious dishes and is one of the preferred crops for export due to its high nutritional value and its ability to withstand transportation and storage conditions.

Varieties

Green , Red

Sizes

From 1 kg - To 1.25 kg

Container Capacity

40 Foot Container
is from 10 to - 12 ton

Packaging

Carton or Plastic Box (7 Kg) Or as per customer request

PRODUCTS

VEGETABLES

SWEET PEPPER

It is considered a vegetable rich in nutrients, as it contains large amounts of vitamin C in addition to antioxidants such as beta-carotene , Egyptian pepper is characterized by its high quality, crunchiness, and distinctive flavor which makes it a popular ingredient in salads, cooking, and snacks , Sweet pepper is grown in an ideal agricultural environment and is exported to global markets for its superior quality and attractive shape.

Varieties

Green , Red , Orange , Yellow

Sizes

From 250 g-To 450 g

Container Capacity

40 Foot Container
is from 12 to 14 ton

Packaging

Carton or Plastic Box (5 Kg) Or as per customer request

PRODUCTS

VEGETABLES

GREEN BEANS

A nutrient-rich vegetable, containing vitamins such as vitamin A , C , fiber and vegetable protein. Egyptian green beans are distinguished by their bright color and high quality , making them an ideal choice for cooking in fresh and frozen dishes. Green beans are grown in fertile soil under studied agricultural conditions and are exported to global markets to meet the demand for fresh vegetables of superior quality.

 Varieties flexo , paulista , tema , xera , fine

 Sizes From 5 cm To 12 cm  Container Capacity Depending on the shipping type

 Packaging Carton Box (5 Kg) Or as per customer request

CITRUS

ORANGES

Oranges are a citrus fruit rich in vitamin C and minerals , They are distinguished by their delicious taste and many health benefits They are used fresh or in juices.

Varieties

Navel , Valencia , Baladi

Sizes

42 , 48 , 56 , 64 , 72 , 80 , 88 , 100

Container Capacity

Telescopic Carton - Plastic Box (40 Foot Container Is 24 Ton)
Open Top Carton (40 Foot Container Is 19.5 Ton)

Packaging

Telescopic Carton (7.5 Kg , 15 Kg)
Open Top Carton (15 Kg) Plastic Box (15 Kg)

PRODUCTS

FRUITS

CITRUS

MANDARINS

also known as tangerines, it is a citrus fruit distinguished by its sweet taste and juicy texture, Egyptian mandarins are distinguished by their high quality, bright color, and thin peel that is easy to peel. They contain a high percentage of vitamin C and antioxidants making them a healthy and delicious choice. They are grown in ideal conditions and exported to global markets thanks to their fresh flavor and excellent specifications.

Varieties

Murcott , Clementine , Fremont

Sizes

30 . 36 . 42 . 48
54 . 63 . 72

Container Capacity

40 Foot Container is 24 ton

Packaging

Carton (7.5 Kg , 15 Kg) Plastic Box (7.5 Kg , 15 Kg)
Or As Per Customer Request

PRODUCTS

FRUITS

CITRUS

LEMONS

A citrus fruit with multiple uses in cooking and health care, Egyptian lemons are distinguished by their high quality, rich juice, and refreshing taste. They are high in vitamin C and antioxidants, making them useful for supporting the immune system and promoting overall health. They are grown in an ideal environment and exported to global markets thanks to their fresh flavor and long shelf life.

Varieties

Benzhir, Adalia, Eureka

Sizes

80 . 88 . 100
113 . 125 . 163

Container Capacity

40 Foot Container is 24 ton

Packaging

CARTON (15 KG) OR AS PER CUSTOMER REQUEST

PRODUCTS

FRUITS

STRAWBERRY

Strawberries are a delicious fruit rich in vitamins and minerals , They are a good source of fiber and antioxidants They are characterized by their high quality and fresh flavor, which makes them one of the favorite fruits in local and international markets.

Varieties

Festival , Fortuna , Florida

Sizes

from 25 mm-to 35 mm

Container Capacity

Shipping by Sea (from 3200 cartons to 3600 cartons)
Shipping by Air (as per customer request)

Packaging

Carton (10 Punnets × 250 g) = 2.5 Kg or As Per Customer Request

PRODUCTS

AGRICULTURAL FERTILIZERS

NEXT STEP
IMPORT AND EXPORT

PRODUCTS

Agricultural Fertilizers(Powder)

Chelated Iron %13

COMPOSITION

Contains %13 chelated iron with EDTA

MIXABILITY

It can be mixed with most fertilizers and pesticides, it is recommended to test it before mixing

PACKAGING

(1 Kg) Or as per customer request

ORIGIN

Egypt

ADVANTAGES AND FEATURES

- Completely soluble fertilizer of chelated iron on EDTA in an easily absorbable form.
- Prevents the appearance of iron deficiency symptoms in the plant.
- Iron plays an important role in the formation of chlorophyll, although it is not included in its composition.
- Iron plays a fundamental role in the respiratory enzymes in the plant cell.
- It works to increase the firmness of the fruits and increase their sugar content, which increases the export specifications.
- Improves the color of the plant and early ripening of the fruits.
- Treats the known symptoms of iron deficiency, which is the appearance of yellowing on the young leaves of the plant.

PRODUCTS

Agricultural Fertilizers(Powder)

Chelated Manganese %12

COMPOSITION

Contains %12 Manganese Chelate with EDTA

MIXABILITY

It can be mixed with most fertilizers and pesticides
it is recommended to test it before mixing

PACKAGING

(1 Kg) Or as per customer request

ORIGIN

Egypt

ADVANTAGES AND FEATURES

- Completely soluble fertilizer of manganese chelated on EDTA in an easily absorbable form.
- Prevents the appearance of manganese deficiency symptoms in the plant.
- Manganese regulates the forms of ferric and ferrous within the plant.
- Manganese activates the respiration and energy production processes within the plant.
- Treatment of manganese deficiency represented by the appearance of yellowing between the veins of young leaves.

PRODUCTS

Agricultural Fertilizers(Powder)

Chelated Zinc %12

COMPOSITION

Contains %12 Zinc Chelate with EDTA

MIXABILITY

It can be mixed with most fertilizers and pesticides it is recommended to test it before mixing

ORIGIN

Egypt

PACKAGING

(1 Kg) Or as per customer request

ADVANTAGES AND FEATURES

- Fully soluble fertilizer of zinc chelated on EDTA in an easily absorbable form.
- It prevents symptoms of zinc deficiency from appearing on the plant.
- Activates the processes of biosynthesis of carbohydrates.
- Increases the fertility and vitality of pollen grains.
- Treats the symptoms of zinc deficiency, the most important of which is the appearance of a pale green color that then turns yellow and then develops into spots that become white with the reflection of the sun on them and this is partially on the lower leaves that are severely deficient.
- Treats the appearance of small leaves on the top of the stem (the phenomenon of rosiness).
- Treats the appearance of the plant as a dwarf due to the small length of the internodes on the stem.
- Treats the formation of abnormal and small fruits, which affects the crop.

PRODUCTS

Agricultural Fertilizers(Suspended)

Lotuo Complex 10-15-50

COMPOSITION

N %10 (W / V)
P %15 (W / V)
K 50 % (W / V)

MIXABILITY

it can be mixed with most other fertilizers except alkaline ones , It also cannot be mixed with sulfur calcium and copper compounds

ORIGIN

Egypt

PACKAGING

20 Kg

ADVANTAGES AND FEATURES

- %100 soluble compound suspended fertilizer manufactured from the finest international raw materials.
 - It is used during the fruiting stage due to its high potassium content along with magnesium, which gives the plant special effectiveness in forming amino acids when combined with nitrogen and thus forming protein.
 - It works to increase the size of the fruits and thus increase productivity and increase the storage period.
 - It works to increase the resistance of the plant to frost and drought.
 - It contains nutrients in various forms and forms that are easy for the plant, which works to make the most of them.
 - It works to activate the process of photosynthesis through its role in activating the enzymes involved in this process.
 - It has a low salt index, which makes it suitable for foliar spraying of the plant to improve its growth condition, especially when exposed to environmental stress.
 - An acidic fertilizer that affects alkaline soils and works to increase the facilitation of the absorption of micronutrients of phosphorus.
 - A stable and homogeneous fertilizer that is not affected by storage.
- Suitable for all modern irrigation systems such as pivot irrigation, drip irrigation and foliar spraying.

PRODUCTS

Agricultural Fertilizers(Suspended)

Lotuo Complex 10-50-10

COMPOSITION

N %10 (W / V)
P %50 (W / V)
K 10 % (W / V)
MG %1.6 (W / V)
S %1.3 (W / V)

MIXABILITY

it can be mixed with most other fertilizers except alkaline ones , It also cannot be mixed with sulfur calcium and copper compounds

ORIGIN

Egypt

PACKAGING

20 Kg

ADVANTAGES AND FEATURES

- High phosphorus suspended fertilizer ready for plant absorption.
- Contains a balanced percentage of nitrogen and potassium elements that help in vegetative growth and double production.
- Contains a high percentage of phosphorus that works to strengthen the root system and increase the percentage of flowering and fruit setting.
- Phosphorus is necessary to form a strong and widespread root system that contributes to the appropriate and rapid growth of the plant and to activate the flowering process.
- Helps in the formation of some oils and sugars inside the plant.
- Rapidly absorbed by the plant through the leaves and roots.
- Works to stabilize flowers, increase the percentage of fruit setting and reduce flower drop.
- Completely soluble in water and does not cause blockage in modern irrigation networks, which saves time and energy required for the fertilization process.

PRODUCTS

Agricultural Fertilizers(Suspended)

Sahare Nors SS 22-22-22

COMPOSITION

N %22 (W / V)
P %22 (W / V)
K 22 % (W / V)
MG %3 (W / V)
S %6.21 (W / V)

MIXABILITY

it can be mixed with most other fertilizers except alkaline ones , It also cannot be mixed with sulfur calcium and copper compounds

ORIGIN

Egypt

PACKAGING

20 Kg

ADVANTAGES AND FEATURES

- A compound soluble suspended fertilizer manufactured from the finest international raw materials.
- It is used during the different growth stages due to its content of major nutrients in addition to its content of micronutrients in an absorbable form, which increases its benefit.
- It works to increase branches and twigs, thus improving crops such as wheat, barley, vegetables and fruit trees.
- It is used during the growth stages to increase the yield and also increase the resistance of crops and fruits to diseases.
- It helps in the spread of roots, which works to increase the absorption of nutrients.
- It helps in activating the photosynthesis process of the plant.
- It has a low salt index, which makes it suitable for foliar spraying of the plant to improve its growth condition, especially when exposed to environmental stress.
- An acidic fertilizer that affects alkaline soils and works to increase the facilitation and absorption of micronutrients and phosphorus.
- A stable and homogeneous fertilizer that is not affected by storage.
- Suitable for all modern irrigation systems such as pivot irrigation, drip irrigation and foliar spraying.

PRODUCTS

Agricultural Fertilizers(Liquid)

Lotuo Complex

COMPOSITION

P %9 K %12
Zn %0.5 Fe %0.5
Mn 0.5 % Cu %0.5

MIXABILITY

It can be mixed with most fertilizers and pesticides except those containing copper , it is recommended to conduct a mixing test

PACKAGING

(5 L)
Or as per customer request

ORIGIN

Egypt

ADVANTAGES AND FEATURES

- Lotuo complex activates the roots and produces new root hairs.
- Lotuo complex increases the activity of beneficial microorganisms in the soil, thus increasing soil vitality and increasing the root system of the plant.
- Lotuo complex speeds up seed germination, improves growth and increases productivity.
- Lotuo complex increases the efficiency of the transport vessels and the plant's ability to absorb nutrients.
- Lotuo complex increases the plant's ability to resist fungal diseases.
- Lotuo complex increases the plant's ability to withstand difficult environmental conditions such as extreme heat and cold.
- Lotuo complex is effective in alkaline, calcareous and saline soils.

PRODUCTS

Agricultural Fertilizers (Liquid)

Lotuo K

COMPOSITION

Potassium Citrate %36.5

MIXABILITY

It can be mixed with most fertilizers and pesticides except those containing copper , it is recommended to conduct a mixing test

PACKAGING

(1 L)
Or as per customer request

ORIGIN

Egypt

ADVANTAGES AND FEATURES

- Lotuo K treats potassium deficiency because it contains a high percentage of easily absorbed potassium, which is potassium citrate.
- Lotuo K increases the size of the fruits, thus increasing productivity and extending the storage period.
- Lotuo K increases the sugar content in the fruits.
- Lotuo K increases the plant's resistance to frost and drought.
- Lotuo K regulates and improves the osmotic pressure in the root zone.
- Lotuo K increases the absorption of potassium as well as nutrients in difficult conditions such as heat, frost, drought and even in the presence of salinity because it contains organic acids in its components.

PRODUCTS

Agricultural Fertilizers(Liquid)

Rota Plus

COMPOSITION

P %9 K %12
 ZN %0.5 FE %0.5
 MN 0.5 % CU %0.5

MIXABILITY

It can be mixed with most fertilizers and pesticides except those containing copper , it is recommended to conduct a mixing test

PACKAGING

(500 cm³)
 Or as per customer request

ORIGIN

Egypt

ADVANTAGES AND FEATURES

- Rota Plus activates the roots and produces new root hairs.
- Rota Plus increases the activity of beneficial microorganisms in the soil, thus increasing the vitality of the soil and increasing the root system of the plant.
- Rota Plus speeds up seed germination, improves growth and increases productivity.
- Rota Plus increases the efficiency of the transport vessels and the plant's ability to absorb nutrients.
- Rota Plus increases the plant's ability to resist fungal diseases.
- Rota Plus increases the plant's ability to withstand difficult environmental conditions such as extreme heat and cold.
- Rota Plus is effective in alkaline, calcareous and saline soils.

PRODUCTS

Agricultural Fertilizers(Liquid)

Cal Mago

COMPOSITION

CA %18
B %2
MG %1.8

MIXABILITY

It can be mixed with most fertilizers and pesticides except those containing copper , it is recommended to conduct a mixing test

PACKAGING

(1 L)
Or as per customer request

ORIGIN

Egypt

ADVANTAGES AND FEATURES

- Cal Mago is a unique formula that contains magnesium, which is essential in the process of chlorophyll formation.
- Cal Mago treats calcium and boron deficiency in vegetables, fruits and field crops.
- Cal Mago increases the plant's ability to metabolize and produce carbohydrates within the plant.
- Cal Mago increases the yield and improves the quality of the fruits and sugar content.
- Cal Mago plays a very important role in building the cell wall because it contains a high percentage of calcium.
- Cal Mago fixes the nodes and prevents fruit drop and increases the storage capacity of the fruits.
- Cal Mago protects against fungal diseases and fruit deformities.
- Cal Mago eliminates hollow heart in tuber crops such as beets and potatoes and black stem in grapes.
- Cal Mago protects against infection with blossom end rot and fruit deformities resulting from boron deficiency.

CERTIFICATIONS

Next Step for Export is proud to hold internationally recognized certifications that confirm our commitment to quality, safety, and sustainability. These certifications assure our partners that every shipment meets the highest global standards, while reflecting our continuous drive for excellence and trust in agricultural exports.
