

Find the Nexus Unit

Our unit is located in a small industrial estate at the back of a working farm so it can be difficult to find on your first visit.

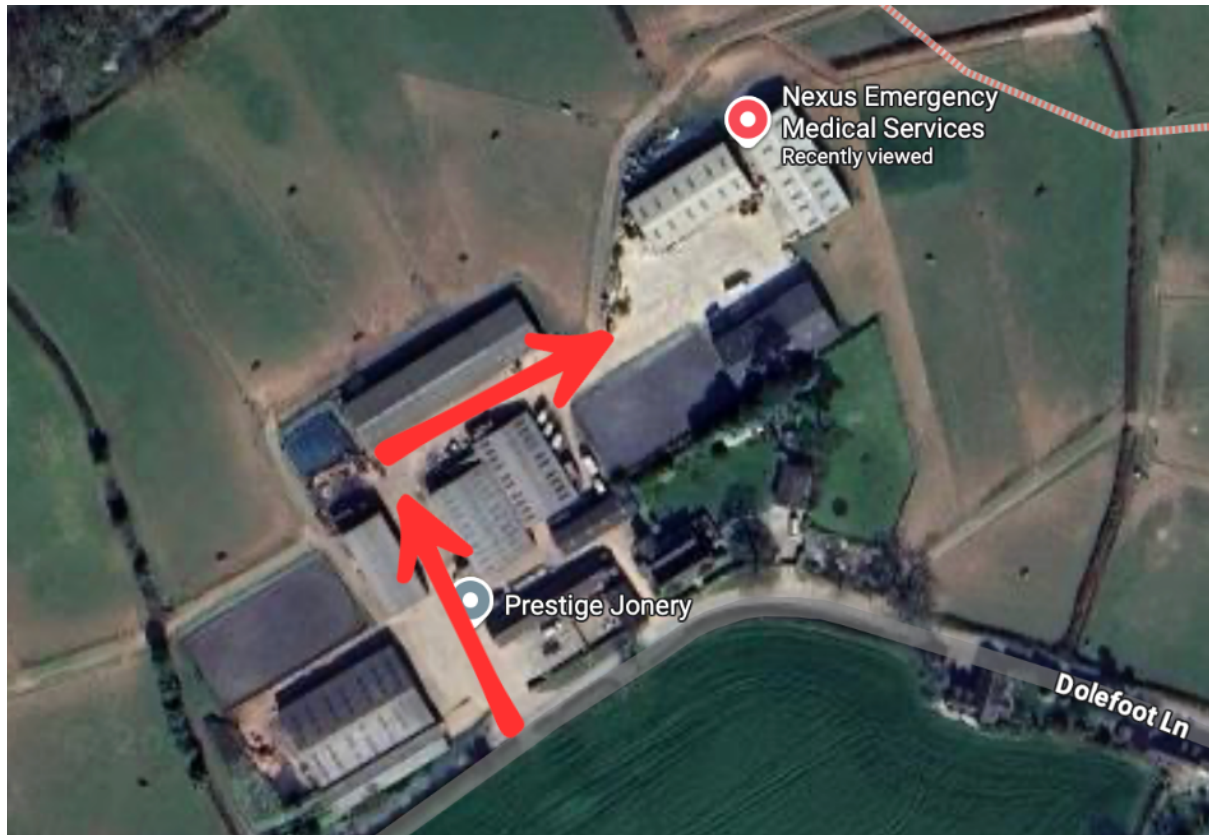

The W3W takes you to the door of the unit.

Unit Address	Unit 1 Dolesfoot Farm Dolesfoot Lane Newborough Staffordshire DE13 8SP
W3W	///blog.slung.scratches
Gate Code	1980
Unit Keysafe Code	8505
Vehicle Safe Code	8505# (Located on Back Wall)

As you approach the farm, the main gate may be locked if early in the morning and you are the first one there. Open the gate and secure on the wall either side. Leave your car on the road whilst you do this as the gates are wide. Be as quiet as possible if early.

Drive straight through the farm, as you pass the cattle shed shown below, bear right and drive up to the industrial units at the top.

- Please be mindful of the neighbours and residents of the farm, especially early in the morning.
- Strictly NO testing horns or sirens on site, please.
- The farm is also home to a horse livery, so you may encounter horses and riders entering and leaving the farm. Please give them right of way and plenty of room.
- If leaving prior to 6am please lock gate behind you. If after 6am it can remain open as the farm will open.
