OneResponse ePCR Guide

Nexus uses an NHS standard ePCR called OneResponse.

OneResponse can be installed on any iOS or Android phone or tablet and can work online and offline.

The Link Below Can be used to access OneResponse:

https://nwptmp-mob.oneresponse-prd.co.uk/

Logging In:

You will use a Pin number which will be allocated to you a always start with "nex".

Some Key Points to Remember:

- Log into the system at the start of the event to ensure its ready.

- ANY patient who requires assessment and/or treatment MUST have a full ePCR completed, not just a minor treatment notification.

- Ensure the incident start and end time are entered.

- Please capture a telephone number for each patient.
