SkinPen

SkinPen is the first FDA-cleared microneedling device in the world, clinically proven to safely and effectively fight the appearance of neck wrinkles and facial acne scars for ages 22 and up. With as few as three non-invasive and affordable treatments spaced 30 days apart, you can improve your appearance for six months after your last treatment - and step out with confidence.

Treated with 3 mL in each hand

LKN SKIN^{AND} BODY

XEOMIN

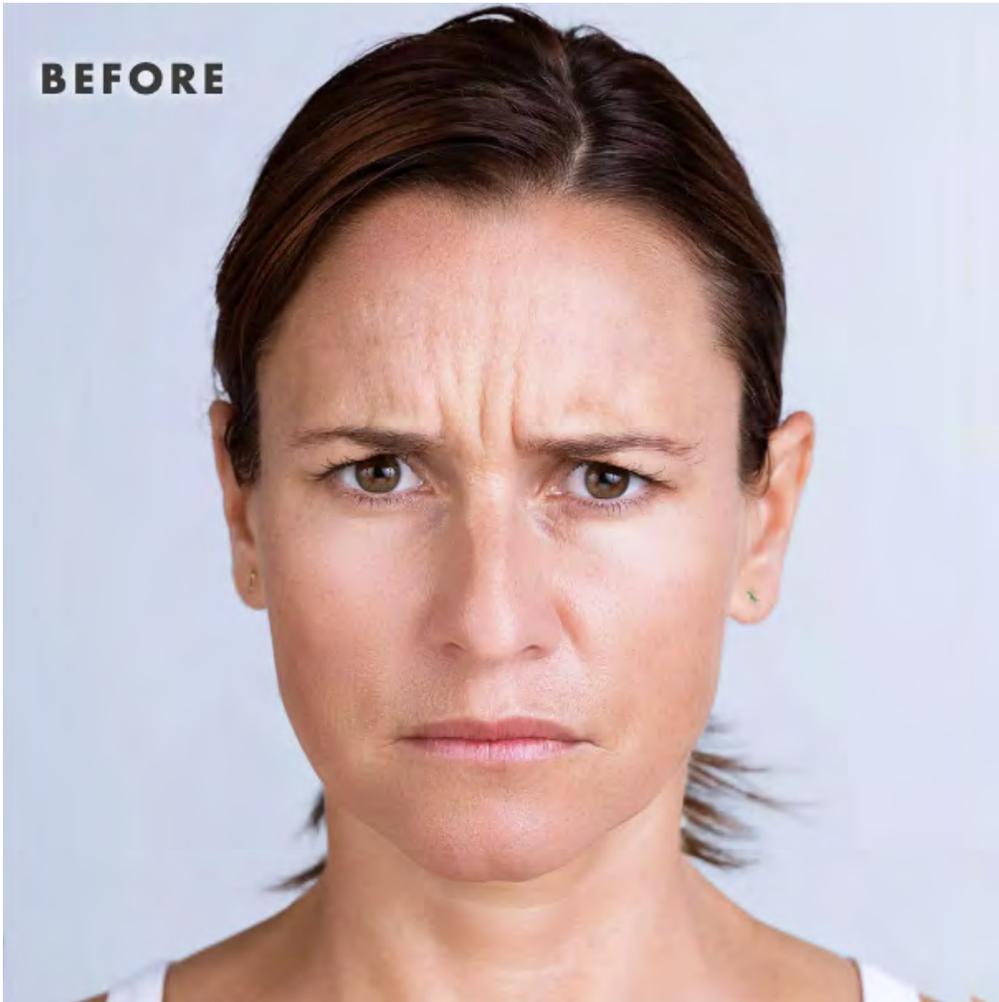

Frown lines form when facial expressions are made as the muscle under the skin contracts. Over time, as your skin ages, these repeated expressions cause lasting frown lines.

Neurotoxins, such as Xeomin, are prescription medications that block the release of chemicals that cause these muscle contractions so frown lines are softened.
